The Janesville Daily Gazette.

VOLUME XLV — JANESVILLE, WISCONSIN, WEDNESDAY, JULY 10, 1901 — NUMBER 102

LAND BOOMERS CROWD EL RENO

Rush to Take Up Real Estate Nearly Causes a Panic.

TROUBLE FEARED

Government Troops Ordered to Oklahoma Town to Keep Order.

ACT LIKE WILD MEN

r El Reno, Okla., July 10.—Registrations for applicants for lands in the Kiowa, Comanche reservation began this morning. Several thousand were in line when the registration office opened.

The situation here as a result of the influx of home seekers has become serious. An ice and water famine is threatened, food supplies are short and scores of people are forced to sleep in the streets. The other place of registration is Fort Sill, a much smaller place than El Reno, and the conditions there may become worse than they are here.

Feeling Is Bitter

Feeling throughout this section of the country is intensely bitter against the government for the arrangements which have been made. It is alleged first that the sixteen days for registration is ridiculously insufficient, that one of the two places chosen is sixteen miles from a railroad and that there is not a sufficient number of clerks at either place to make it possible under the most favorable circumstances to do the required work in double the time.

Further, the drawing is regarded as unsatisfactory. If this were not enough the cattle men are in arms because they aver the opening of the lands at a time when thousands of cattle on the ranges are immature will mean a serious financial loss. A petition has been sent to Secretary Hitchcock asking him to delay the opening ninety days.

Fighting Mass of Men

Oklahoma City, Okla., July 10—Such an light has never been witnessed as when the train pulled into the depot to take aboard passengers bound for El Reno this morning.

For an hour previously the platform and the ground for over 100 yards around had been a seething, fighting mass of men, with a few women and children in the crowd. The moment the train stopped the scramble began. Women were knocked down and trampled upon. Several chi'den were lost in the crowd and when finally the train moved off at a risk of running over several men who were trying to climb on the engine by means of the cowcatcher every available portion of space was occupied and over 100 men were sitting on the tops of the coaches. Nearly eveyone carried a blanket and provisions. Canteens and jugs were taken along to guard against a water famine.

CHINA'S BIG CLAIM AGAINST THE U. S.

Want $500,000 Damage on Account of the Anti-Chinese Mobs at Butte, Montana.

Washington, D. C., July 10.—The Chinese government through Minister Wu Ting Fang, has filed a claim for indemnity to the amount of $500,000 on acount of alleged outrageous treatment of the Chinese at Butte, Mont.

It is charged that some of the Chinese were killed, others lost their property, and nearly all were ruined in business and many of them driven out. The claimants number several hundred.

The outrages date back to 1886, and it is declared that the City Council of Butte upheld the rioters and that the state court decided, in language so unjudicial as to be itself a subject of complaint, that the city council was right.

Miss Faye Ford of Chicago is the guest of Mr. and Mrs. W. S. Jeffris.

TO INSPECT ALL WESTERN HORSES

New State Live Stock and Sanitary Board Held a Meeting at Madison Yesterday.

Madison, Wis., July 10.—[Special] A strict inspection of all western horses before they can be brought across the border into Wisconsin is being strongly talked of by the new state live stock sanitary board, and if Governor LaFollette agrees as to its wisdom the plan will be promulgated. It was favorably discussed at a meeting of the board here yesterday afternoon. It is believed that the glanders, a disease which breaks out semi-occasionally in the state, is brought here by western horses which have been brought into the state in considerable numbers, and it is hoped that with such an inspection system the disease can be eliminated from the state. The inspections would probably be made at St. Paul and Chicago.

EVENTFUL LIFE OF HAWLEY COLE

Died at Milwaukee Yesterday Afternoon—Well Known Among Horsemen in Rock Co.

Hawley Cole, who died at his home in the Norman flats, Milwaukee yesterday from a complication of diseases, followed by a severe sickness and an operation in January, had numerous friends in this city. For many years he was a regular attendant a the trotting meetings given by the Janesville Driving Park association and was popular with every one.

He was born in Saratoga Springs, N. Y., eighty-three ago and first appeared upon the active stage of life as a peddler, driving a wagon laden with stationery, pens and inks and articles in that line. In 1849 he moved to Detroit where he took charge of a construction train on the Michigan Central railroad then being built. He, as conductor, ran the first passenger train into New Buffalo and Michigan City, Ind. He remained with the Central for five years and then came to Wisconsin with Alexander Graham of this city. The latter gentleman had a contract for building a branch line of the old Milwaukee & Mississippi railroad, now the Prairie du Chien division, betwen Janesville and Monroe, and Mr. Co'e ran the construction train for him. He remained on the road until 1858, accepting the position of conductor, the first on the branch, and then went to Milwaukee. In that city he became agent of the Michigan Central railroad, a position which he filled for twenty-one years.

ENDEAVORS WILL ADJOURN TONIGHT

It Was One of the Most Successful Meetings in the History of the Organization.

Cincinnati, O., July 10.—The twentieth annual convention of the Christian Endeavores which comes to a close today is pronounced one of the most successful in the history of the organization. The sessions this morning were devoted to the discussion methods which have made the organization a success. The afternoon was given over to mission workers, this evening farewell meetings will be held.

DR. J. R. CUARAN MADE PRESIDENT

Madison, Wis., July 10—[Special]—At today's meeting of the state board of medical examiners Dr. J. R. Curran of Two Rivers was elected president; H. M. Ludwig of Richland Center, secretary. The examination of applications for license will be finished tomorrow.

Excursion Rates to Chicago,

Via the North-Western Line. Excursion tickets will be so'd at reduced rates for round trip July 23, 24 and 25, on account of B. Y. P. U. convention. For limits of tickets, etc., apply to agents Chicago & North-Western R'y.

HINSEY IN DANGER OF EXPULSION; INVESTIGATE PYTHIAN SCANDAL

Supreme Lodge in Session at Chicago Talks of Possible Indictments for Alleged Misuse of Funds—Embezzlement Openly Charged.

Chicago, June 10.—J. A. Hinsey, former president of the board of control of the endowment of the Knights of Pythias will be expelled from the order by the supreme lodge now in session in this city. A motion to that effect was made at last night's session, but was not put to vote, the delay being to allow Mr. Hinsey a chance to speak at his morning's meeting.

With him will be expelled H. B. Stolte, former secretary of the endowment rank, W. B. Kennedy, the editor of the Pythian Tribune, and possibly other members of the order.

Rumor was strong last evening that some of the former officials of the Endowment rank would be brought before the grand jury, and that indictments would be sought on the charge of embezzlement. Against certain officials, it is alleged, strong cases can be made out. Against others there is a suspicion, but little or no proof of wrong doing.

Bad Work disclosed

The condition of the endowment rank, as made plain in a voluminous report submitted to the supreme lodge by Supreme Chancellor Ogden H. Fethers yesterday, was even worse than had been anticipated, as far as squandering of its assets in the past are concerned. While the rank is practically $500,000 behind in the payment of its death losses, it has on hand almost the same amount of unavailable assets. From 1893 until January of this year some one who was given a free hand in its management deprived the relatives of the deceased knights of their money, bulldozed and frightened some into giving up their claims, and delayed for months those that were paid, and all this, the officers charge, bad investments might be made, profitable to those guilty of mismanagement.

Nor is this all. The chancellor charges that evidence is found in such of the books of the rank as were not destroyed that money had been embezzled.

Will Increase Payments

Today and tomorrow the supreme lodge will digest the facts brought before them and decide what action to take not only toward punishing the guilty but restoring the endowment rank to good standing. They will certainly increase the rates of payment by from 25 to 50 per cent. They will certainly cause heavy assessments to be placed on all members of the rank. They may call on all knights of pythias regardless of their membership in the insurance branch to help out in the good name of the order.

Possibly in addition they will bring civil suits against former members of the board of control to recover what has been lost. Yesterday there semeed, however, a general feeling that it would not be right to hold the innocent members of the board of control financially liable for being careless while the whole order was careless and trusted the affairs to Mr. Hinsey.

HE BLEW OFF ONE SIDE OF HIS HEAD

A Cheesemaker at Monroe, Suicided Because His Employer's Daughter Jilted Him.

Monroe, Wis., July 10.—J. U. Freuch, a cheesemaker employed by Paul Schraepfer on the Dairymaple farm in Exeter township, this county on Sunday evening blew off one side of his head with a snotgun, in the factory where he worked. He loved his employer's daughter, who jilted him for another on the Fourth. He was desperate when she told him Sunday evening that she did not care for him any longer, bade her goodbye and ended his life within a few yards form where the girl was milking cows and within five minutes after his last words to her. Feuch was 28 years old, a native of Appenzel, Switzerland. He came to Green county in 1891.

BEGIN AT STOUGHTON

Application to Council of That City for Franchise for Madison-Janesville Electric R'y.

Madison, July 10.—[Special]—P. L. Spooner of this city filed an application with the city council of Stoughton for franchise to construct and operate an electric railway in that city and the matter is to be taken up by the city fathers without delay. The ordinance permitting its operation contemplates that the railway be completed and in running order within two years.

This confirms the report of an electric railway line from this city east to Stoughton, Janesville, Oconomowoc and other points. Power for this line is to be obtained from Kilbourn City where the water power was recently purchased by a syndicate of which Mr. Spooner is a member.

There is a report that C. F. Pfister and other Milwaukee capitalists are in the deal and that the connection of all the southern Wisconsin summer resorts is contemplated.

RUTH PYRNE IS FOUND AT MADISON

Oshkosh Girl Comes to Janesville in a Box Car - Says She Ran Away for Fun.

Madison, Wis., July 10.—[Special]—Ruth Pyrne, a fourteen year old Oshkosh girl, who ran away from home last night was found here this morning and is locked up at the police station awainting the arrival of an officer from Oshkosh. The girl says she rode in a box car from Oshkosh to Janesvil'e, arriving there in the night and then came to Madison in a cattle car, in which she was found asleep in the railroad yards this morning. She was alone and says she ran away just for fun. She ran away from home about a year ago and was ofund at Appleton.

Beloit News

Beloit, July 10.—Fully 1,000 men, women and children too kthe early special train for Lake Geneva this morning.

Mrs. Oscar Tourney, a well-known Beloit woman, was taken to the Mendota asylum today. She witnessed the death of the two women killed on the railway track here recently and has not been quite right since.

GROWING CROPS IN FAIR CONDITION

Effects of Hot Weather Felt in Nearly All Parts of the Country—Damage to Corn.

Washington, D. C., July 10.—Following is the weekly official crop report of the department of Agriculture:

The northern and central districts east of the Rocky Mountains have experienced two consecutive weeks of intense heat, and, while, the daily average temperature excess of the week ending on July 8 was not quite so marked as in the previous week in the central valleys, it was more so in the Middle Atlantic coast states. No seriously injurious effects to crops from this period of intense heat is reported from the Middle Atlanitc states, but from Texas northward to Nebraska, including Missouri, Arkansas and portions of Illinois, Kentucky and Tennessee the crops have suffered to a greater or less extent.

Tobacco has suffered somewhat from heat in Maryland and Virginia and its growth has been checked by drought in portions of Tennessee and western Kentucky. The general condition of the crop, however, is satisfactory.

Wisconsin—High temeprature early part of the week; severe local storms with excessive rains, and in a few localities hail did considerable damage to crops in central counties; rain badly needed in southern sections; corn making rapid growth, cutlook promising; oats genera'ly good, but injured to some extent by heat; hay being secured in good condition in southern section, but in central counties large quantity of clover damaged by rain; tobacco in need of rain.

HIGH EXPLOSIVES BLOW UP BURGLAR

Unknown Man at Benton, Wis., While Trying to Steal Tools, Meets Sudden Death.

Benton, Wis., July 10.—A would-be bank burglar was literally blown to pieces here last night by the explosion of nitro-glycerine which he carried in his hip pocket. He was breaking into a creamery to get tools with which to force an entrance into a bank. As he was climbing through an opening into the creamery a trap door fell and struck him on the hip, exp'oding the nitro-glycerine. He was instantly killed.

YOUNGER BROTHERS ARE UNDER PAROLE

St. Paul, Minn., July 10.—The Pardon board today approved the parole of the Younger Brothers, serving life sentences, for complicity in the Northfield bank robbery and murders.

JAS. KILBOURNE FOR GOVERNOR

Columbus, O., July 10.—The democratic state convention today adopted a platform in which Bryan and the Chicago and Kansas City platforms were not mentioned. Jas. Kilbourne of Cincinnati was nominated for governor by acclamation.

NO CANTEEN AT CAMP DOUGLAS

Adjutant General Boardman Puts an End to the Recent Agitation of State Militiamen.

Madison, Wis., July 10.—[Special]—"Since the military reservation at Camp Douglas was established the sale of liquor has never been permitted on the grounds. At no time have the present state military authorities had any intention or idea of permitting the sale of liquour there."

This is Adjutant General Boardman's statement on the canteen question when asked for a statement of his position, in view of the talk which is going around of the establishment in camp. There would seem to be no further reason for the good people who are opposing the canteen to worry, while the soldiers who cannot endure camp life without beer can tread the old path to the numerous saloons at the village of Camp Douglas, half a mile from camp.

CZAR ANXIOUS TO END TARIFF WAR

Russian Finance Minister De Witte Offers a Compromise for Duties, to Secretaray Geg.

Washington, D. C., July 10.—Russia has proposed to rescind its action in imposing additional duties on American goods going into the czar's dominions if the United States will not collect countervailing duties on Russian sugar coming into the United States.

Secretary Gage advised the Russian government through the state department, that the matter was now before the courts for determination.

The action of Russia is an indirect result of Secretary Hay's note of two weeks ago. The proposal made by the Russian government is taken to indicate that a more conciliatory feeling exists on the part of the Russian officia's, and the belief is that the prospect of an extensive tariff war between the two countries is more remote now than it has been for several months.

It is seldom that Russia blunders in conducting diplomatic or commercial relations with another power, but it has done so in this tariff controversy with the United States.

Figuratively speaking the bear has been caught in a steel trap and is limping painfully. The few officia's of the government at Washington who understand the situation are enjoying his discomfiture, but are saying nothing about it, however.

The controversy between the United States and Russia began early this year, when Secretary Gage, convinced that Russia was paying an indirect bounty to its sugar exporters, directed that a countervailing duty be imposed upon all importations of that product into this country.

The secretary took this action so'ely because the Dingley revenue law made it mandatory upon him to do so. The Russian government protested it, and declared it was not paying any bounty whatever. But Secretary Gage had no alternative course to pursue, and when several cargoes of sugar from the czar's domain arrived in Baltimore, the countervailing duty was levied. It was paid under protest, and an appeal made to the federal courts in Maryland, where the case is still pending.

TWO PASSENGERS REPORTED KILLED

Fast Train On the Chicago & Alton Road in Missouri Collides With a Freight.

Marshall, Mo., July 10—The Chicago & Alton pasenger from Chicago collided near here early this morning with a freight train. Two passengers are reported killed and twenty five injured.

The reports from the scene of the wreck which occurred three miles from Norton, the first station west of here are conflicting, one says six are dead, and the other that nine are dead.

DAIRY PRODUCT OF WISCONSIN

Butter Produced is Nearly Three Times That of Cheese.

IS WORTH $32,900,000

The Dairy Industry is Growing Rapidly in All Parts of the State.

H. C. ADAMS REPORTS

Madison, Wis., July 10.—[Special]—Wisconsin's dairy products in the year 1900 were worth $32,900,000, Dairy and Food Commissioner H. C. Adams says in his biennial report, just issued, the butter product being nearly three times that of the cheese. The classifications are:

Butter, 80,000,000 pounds, worth	$16,000,000
Cheese, 60,000,000 pounds, worth	6,000,000
Milk and cream consumed by 2,066,000 people, worth	8,400,000
Increase of stock value	2,500,000
Total	$32,900,000

"The dairy industry in Wisconsin" the commissioner says, "is steadily increasing in extent and constantly improving in the character of its products. The state not only contains more cows than ten years ago, but they average better in breeding and in economic milk-producing quality. We have more cow barns and better ones. The problems of feeding are being carefuly and profitably studied.

Modern Methods Introduced

"Modern methods and new dairy appliances and machinery are cutting down the percentage of waste in the manufacture of butter and cheese and the old-fashioned 'store butter' that filled the groceries of the state with unhallowed odors ten years ago has largely given lace to first-class creamery and dairy butter that has uniformity, texture, and flavor which will excite appetite rather than destroy it. The improved article is produced at less cost and sold at a higher price than the inferior product.

"Unprofitable cows are being weeded out, and the cow that can produce 300 pounds of butter per year is becoming a familiar figure. The 1,000 creameries of the state are turning out annually 60,000,000 pounds of butter that averages good. Private dairies produce 20,000,000 pounds more of which 30 per cent, or 6,000,000 pounds will grade with the average creamery product, leaving 14,000,000 pounds or something over 15 per cent. of inferior quality."

Gives Good Advice

The commissioner gives the dairyman some good advice. "The average Wisconsin cow," he says is not yet good enough. Her averaged product, measured in butter, is approximately 160 pounds per year. It should be at least 250 pounds. Every owner of a cow should test her. If she fails to reach a profitable standard, she should be slaughtered or sold to a beef producer. The dairyman who guesses at he product of his individual cow is doing business in the dark. Testing is easy and cheap. There is no excuse for ignorance in this matter. Capital punishment applied to 25 per cent. of the dairy cows in Wisconsin would be a Godsend to the dairy interest. Many dairymen are working hard and faithfully to support cows which should support them. Many a man who would laugh at the Mexican idea of ploughing with a forked stick is doing a less intelligent thing by feeding cows that eat more dollars' worth than they produce. The beef cow has no place in the dairy. The general purpose cow does not belong there. The wedge shaped cow with no surp'us of bone or flesh, with good lung power, strong and capacious digestive machinery, and great capacity for the elaboration of good milk, can be bought or bred.

Milk Adulteration Decreased

"There is a marked diminution in

(Continued on Page 8.)

STILL HAS MILLIONS TO GIVE AWAY; CARNEGIE PLANS MORE GIFTS

Amount of His Remaining Fortune Will Reach $280,000,000—He Will Give Away All of It.

New York, July 10—Andrew Carnegie still has $28,000,000 to give away in public benefactions. Mr. Carnegie himself is authority for this statement, which he made recently at Skibo castle to a member of the New York Chamber of Commerce committee who is now in this city, but has had his name kept secret from motives of personal delicacy.

Several membes of the New York Chamber of Commerce delegation which went o England recently visited Mr. Carnegie at Skibo castle, and with them the millionaire discussed his gifts to the public. He remarked that in the future he intended to make other donations, more extensive even than heretofore, to public institutions.

According to Mr. Carnegie he is still undecided in what manner to dispose of his wea'th for the public good. He wishes the public to obtain the best results from his benefactions, and for that reason has not yet formulated any philanthropic plan. Mr. Carnegie admitted free libaries and other educational institutions would undoubtedly obtain a portion of his millions.

Mr. Carnegie's friends say that his plans are only a natural result of his famous declaration: "It is a disgrace for a man to die rich." and that he will undoubtedly make a practical example of his doctrine. Mr. Carnegie, whose total income annually is estimated at $15,000,000, has in the last twenty years given to public libraies, schools and colleges, $40,964,352. Of this sum American institutions obtained $29,070,052, and foreign institutions $11,894,500.

PLAN WELCOME FOR GEN. M'ARTHUR; ROYAL GREETING BY MILWAUKEEANS

The Hero of the Hour in Wisconsin—Reception Committee Will Be Sent to the Pacific Coast.

Milwaukee, Wis., July 10.—The Merchants and Manufacturers' association will make elaborate preparations for the reception of General MacArthur on his return to his home in this city from the Philippines about Sept. 1. At the present time, it is said, he is in Japan, but within a couple of weeks will reach San Francisco on the Transport Sheridan, where, if possible, a committee of Milwaukeenas, headed by General Charles King, wi'l meet and escort him to this city.

While many of the features of the program have been outlined, none have been adopted, but Secretary Whitney says it is proposed to make it one of the grandest affairs in the history of Milwaukee if the people take hold of it as leading business men have indicated they would when questioned.

Milwaukee is very proud of the record made by her distinguished soldier, and as General MacArthur a short time ago told a Milwaukeean who visited him at Manila that it wou'd be the proudest day of his life when he reached Milwaukee, the city of his boyhood and young manhood, the spirit seems to prevail among all classes that he shall not be disappointed.

It is proposed by several who are taking an interest in the plans to urge the business houses to make an effort to excell any previous attempt in the way of decoration. The governor will probably be asked to send the entire national guard to the city, and the United States government wil' be asked to have in the bay on the day of the arrival of the general such of the craft as can be brought here to fire salutes.

LAWN SOCIAL OF THE LOANI BAND

Pleasan Meeting at Home of Mrs. Geo. D. Charlton Yesterday Afternoon—King's Daughter's Social,

The Loani Band of the Congregatoinal church held one of the most enjoyable meetings of the year last evening and several of the young ladies of the church enjoyed meeting with the band as its invited guests. Through the hospitality of Mr. and Mrs. George D. Charlton, the meeting was held at their home, 107 South High street, and the pleasant home and the spacious lawn wer thrown open to the young women who represent one of the most active missionary societies in the city.

The meeting was held on the lawn and began with an elaborate picnic supper. The long table decorated with black-eyed Susans was spread beneath the cool shade of the great trees and about fifty young women were seated around it. The supper was an excellent one and its service was enlivened by a spontaneous flow of sociability.

After full justice had been done all the dainty edib'es there was a short program. Miss Fanny Ryckman presiding, Rev. Robert C. Denison, who was a guest of honor, was asked for a few remarks and he made a brief and interesting talk, full of valuable suggestions. He said that just such an occasion as that gathering was adequate reason for doing missionary work. Such a gathering of women was unoriental and would be an impossibility in heathen lands.

It, together with many of the mercies which are accepted as a matter of fact, is a result of Christianity. So long as the people in this country enjoy something better than that which heated countries have, it is America's privilege and sacred obligation to engage in missionary work. The teacher in the public school finds her right to teach the child in that she has something in her experience and life which is unknown to the chi'd and which it will benefit the child to know. Precisely the same simple reason underlies missionary work.

The duty of Americans to send missionaries to India, China and other countries, does not depend on approval of the way in which missionaries do their work nor on the fact that there is need of more Christianity at home, but rests on the simple basis, that Christianity has given to America advantages which heathen lands do not enjoy. People who do not believe in foreign missions are clinging to the old narrow idea of self interests and have failed to grasp the broad world thought.

In closing Rev. Denison said that he wished to speak a personal word, voicing his pride and satisfaction in the work of the Loani band. He regarded it as one of the most helpful of the church organizations, because of its living activity, evidenced in its growth.

After Rev. Denison's remarks Miss Ryckman spoke a few words of cordial welcome to the young women who were the guests of the band and expressed the wish that future meeting would be attended by all those who were present yesterday. She explained that all money raised by the band is raised by voluntary contributions and then called for the treasurer's report.

This report was given by Mrs. Frank H. Farnsworth and showed that of the amount pledged by the band for this year, about one-third is now in the treasury. The amount pledged was about $160.

Miss May Cunningham, in whom is much of the vitality of the Loani Band, spoke a few helpful words on the work of the society and on its sugestive motto, "Look Out and Not In," the initial letters of which form the society's name. Miss Cunningham said that only by living in the spirit of the motto was it possible to live the highest, most helpful Christian life. The motto is the expression of the true missionary spirit.

After the brief program a short time was spent socially, goodnights being said just as the last lingering rays of the summer twilight departed and the shades of night began to fall. The next meeting of the Loani band will be held on the second Tuesday in August.

MATCH PLAY FOR RICHARDSON MEDAL

Finals Will Be Played Next Tuesday Afternoon—Course is Not in the Best Condition.

Yesterday was an ideal day for golf playing with the exception of a strong breeze which interferred some at one or two holes. Quite a number of the club members took advantage of the pleasant weather and spent the afternoon on the links. The second round of match play for the Richardson medal took place and the most of the matches were closely contested. The finish of the match was as follows:

Chas Dunn (6), defeated F. E. Fifield (6) two up.

Al. Schaller, scratch, defeated J. P. Baker (4), one up.

F. J. Baker (6) defeated H. G. Carter (6), one up.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

If you want to get rid of dyspepsia, or any stomach ill, take the Bitters It also cures

Indigestion, Constipation, Liver and Kidney Troubles,

and has done so for the past fifty years. Try it

H. H. McKinney (6), defeated H. S. McGiffin (8), one up.

The drawing for partners in the semi-finals will be made during the week. The match will be played off next Tuesday afternoon, which will give the winners a chance to play the finals during the tournament.

A good deal of comment has been made by some, on the condition of the course for a tournament. While the green is in first class shape the putting greens are very dry and hard. According to visitors who have played over different courses throughout the state where the greens are not piped for watering, the Sinnissippi greens are in better condition than the most of them. The fair green is smooth and far ahead of most courses in the state.

Secretary Baker has heard from a number of clubs throughout the state and a majority of them will send delegates to the state convention and players for the tournament. A gasoline engine will be installed this week at the grounds which will insure an abundance of clear water for all purposes during the tournament. A watering tank has been secured and the greens wi'l be given a thorough soaking every night from now on to the finish of the tournament. The subscription list for defraying the expenses of the meet is now at Baker's drugstore and it is hoped the members of the club will subscribe liberally to this enterprise.

THE CAUSE OF CORNS.

Scientfic Disertation Upon the Reason for Their Appearance.

The thickend cuticle over each new papila, instead of being rasped away, as in the case of the barefooted savage, is at first heaped up upon the surface like one of the horny cones covering a dog's paw. But being unable to get any farther in an outward direction, on account of the unyielding boot, it presses inward upon the tender and vascular tissues of the papila itself, and at length penetrates them in the form of an inverted cone of corneous matter. By this time the slow-moving autocrat of a'l the body whom we call "I," and who, as a rule, knows even less about the workings of his remote frontier departments than does the czar of Russia himself, finds it impossible to stand the thing any longer, so he removes his boot and takes the matter in hand (more or less) secundum artem. But whatever he may think or do, and however much he may assert his sovereign rights over his own extremities, he gets no help or countenance whatevr from his staff or permanent officials, who obstinately and insolently continue to make believe that their lord is still a wild savage, running barefoot in the woods.

YOUNG GIRL MAKES TRIP FROM IRELAND

Miss Margaret Moore, 18 Years Old, Arrived from the Emerald Isle Yesterday Afternoon.

Miss Margaret Moore, an eighteen year old lassie fresh from Ire'and, arrived in the city yesterday noon and gave her sister, Miss Lizzie Moore, who is employed at the home of Mr. and Mrs. W. S. Jeffris, a delightful surprise. Miss Lizzie sent for her sister some time ago sending her the ticket which was to bring her from Ireland to Wisconsin, but her sister wrote back to her saying that the Irish agent was making some trouble about the ticket, demanding an additional sum of money for it, and that she would not be able to sail for America on the boat which she had expected to. Consequently, Miss Lizzie, much disappointed, had given up seeing her sister for some time and the surprise which her arrival gave was complete and joyous.

Miss Margaret crossed from Belfast to Liverpool, sailing from the English port to New York. She made the trip a'one and did not send any word of her coming to her sister. When she arrived in this city she took Alvah Russell's carriage to Mr. Jeffris' home, where ther was a happy reunion of the sisters who had not seen each other for eight years. Such a trip for an inexperienced young girl who had spent all her life in the country, is certainly quite an undertaking.

Miss Margaret will remain in this city, being the third of the family to leave her native country, where her father and mother still reside, for America. Miss Lizzie came first and last year she sent back for her brother, who is now living in this city, being one of the most faithful employes of the Jeffris Lumber company. In these days of irresponsibility and thoughtlessness, the enterprise of a young working girl in saving the passage money for a brother and a sister is at least noteworthy.

BOARD OF CONTROL ASKED TO EXPLAIN

Unless something is wrong that the general public knows not of, the action of the Board of Control in discharging Superintendent Bliss of the School for the Blind at Janesvil'e and Superintendent Swiler of the School for Mutes at Delavan, is little short of criminal. The people demand a reason for this action and the Board should make haste to give it.

Mr. Bliss has been superintendent at Janesville for six years and nothing but praise has ever been heard of his management of the institution, and the fact that every pupil petitioned Gov. La Follette to retain him shows in what affectionate esteem he is held by those sight'ess boys and girls who have been entrusted to his care.

Why has he been discharged? The statement given out by the Board that they wanted a "trained educator" is an explanation that don't explain. If it takes six years for the Board to find out that a superintendent is not a "trained educator" the gentlemen comprising the Board are unfit for the positions they hold and they too should resign.

Bad as is the case of Superintendent Bliss, that of Superintendent Swiler is infinitely worse. Here is a man who is a trained educator, has been at the head of the School for Deaf and Dumb at Delavan for twenty-one years and under his supervision the school has reached such a high state of perfection that it is he'd up as a model in every state in the Union. So great was his reputation that he was retained during four years of democratic administration. Why was he discharged? Was it because he was a "trained educator" or was it because he, like Superintendent Bliss, is persona non grata with Gov. La Follette, because each persisted in attending to the duties of his office, instead of shouting for the primary election bill?

Ther are many people who are uncharitable enough to say that the members of the Board have sold their independence for a mess of political porridge and become time-serving sycophants, in order to retain their jobs. This we do not believe, nor will we, unless the Board fails to explain their action. We cannot be'ieve they will make unfortunate children, deaf, speechless, and sightless, the foot ball of factional politics.

The Board has pointed with pride to the fact that the charitable and penal institutions, had, by order of Gov. Scofield, been practically placed on a civil service basis, and some of the present members will remember taking the writer of this artic'e into their rooms and explaining this matter fully to him before he started out in the fall of 1898 to make republican speeches.

In view of the above and the high personal character of the members of the Board we cannot believe that they have deliberately started in to drag our institutions from their present high plane of excellence into the mire of politics. So we kindly ask the Board to explain. Why did you do it?—Darlington Republican Journal.

NEWS AND NOTES OF BADGER STATE

Dépere—A case of smallpox has developed in the family of Eugene Smith, his 10-year-old daughter being the victim.

Baraboo—John E. Lewis, who escaped from the Sauk county jail nearly a year ago was arrested at Lodi, where he took part in athletic events on July 4, winning several prizes.

Washington, D. C.,—The following Wisconsin clerks in the treasury are promoted to take effect July 1: Miss C. L. Willard, office of the comptroller of the currency, $1,,000 to $1,200; George H. Cooper, office of auditor for the postoffice department $1,000 to $1,800; L. M. Holt, office of the auditor for the postoffice department, $840 to $900.

Berlin.—Trickey Brothers, formerly of Kansas, have combined with J. P. Luthur of this city and will manufacture handmade gloves and mittens.

Grand Rapids—W. H. Burlington of Vesper has presented the S. B. Scott public library of this city with a valuable collection of geological specimens, that is hoped will prove the nucleus of an extensive museum in connection with the library. The collection consists of fossilized shells and plants, iron ores and stalactite crystals.

La Crosse—Harry Bowers, 17 years old, bell-boy of the hotel Grand, was arrested on a charge of grand larceny, the crime alleged being the theft of a watch from George Kroner, a patron of the house.

Kenosha.—Articles of incorporation were filed with the register of deeds for the incorporation of the Merchant's and Savings bank of Kenosha, Robinson & Co., proprietors. The capital stock of the new bank is $25,000 fully paid up. The officers will be Harry B. Robinson, president, and A. Wilder,, late of the Continental National bank, Chicago, cashier.

Berlin—A bank has been organized at Wild Rose with $25,000 capital and these officers: President, D. Frost, of Stevens Pont; vice-president, Q. H. Patterson, of Wild Rose; cashier, G. McDill, of Stevens Point. The directors are C. A. Smart, Q. H. Patterson, F. Clark, G. McDill and D. Frost. A bilding is being erected for the bank and the business will open September 1.

King's Daughters' Social

The lawn surrounding the Baptist church was an atractive place last evening, brilliantly lighted with many rows of decorative lanterns and headlights. The occasion was the lawn social given by the King's Daughters of the church and they have reason to be well pleased with th evening's success.

The tables at which delicious ice cream was served were presided over by the young women who are members of the King's Daughters' band and they were kept busy caring for their patrons. During the evening the Orpheus Mandolin c'ub furnished an excellent concert program and many people lingered to hear the exquisite music even after they had ben served with refreshments.

Excursion Rates to Milwaukee,

Via the North-Western Lines. Excursion tickets will be sold at reduced rates for the round trip, on account of Elks' Grand Lodge to be held at Milwaukee July 23 to 25. For dates of sale, rates, etc., app'y to agents Chicago & North-Western R'y.

THE ROGERS WILL VEXES PEARSON

"Rogers Was an Old Ignoramus," Says the Artistic Giver—Museum Not a Public Need.

"An ignorant man!" was the characterization of Dr. D. K. Pearsons of the late Jacob S. Rogers, the locomotive builder, who by his will left almost his entire fortune of $6,000,000 or $7,000,000 to the Metropolitan Museum of Art in New York.

Dr. Pearsons has given away $8,000,000 to institutions of learning, and he has made a study of the art of bestowing money. Monday morning in Chicago he did not hesitate to express his opinion of the old bachelor whose will was read yesterday in Paterson, N. J., shortly after the funeral.

"'He had no conception of the way to provide for the disposition of his means so as to cause a great benefit,'" said Dr. Pearsons in his office in the Merchants' Loan and Trust Company's bulding. "All his life he had saved and hoarded, and when he came to die he did not know what to do with his money. Depleted in body and brain, he was not in a condition to see things clearly. He was half-crazy"

Money is the greatest trouble many rich men have when the ends of their lives draw near. Eighty years old—and going, going, going! Gasping and staring, they cry out, 'What shall I do with my stocks and bonds and money in the bank?'

"Never having made a study of the art of giving, they have no idea of how to give away their property. Often, through some insane notion such as this old ignoramous had, they wish to cut off their re'atives and then the question comes, 'To whom else shall my vast wealth go?'

"'Here we have the spectacle of this great fortune of millions of dollars being piled in a heap onto one institution, a museum of art—art of which he knew nothing and cared less.

"Would any man in normal condition of mind and body make such preposterous bequest? It was the logical result of his manner of living and acting during life. Now he cuts off his relatives to give this vast sum to a museum—an institution that does not need it, and that the people do not need. Well the relatives will fight the will and the estate will be eaten up—and it ought to be."

Lake Geneva.

A first-class personally conducted excursion to the beautiful resort on Tuesday, July 16. Round trip only $1.00. Leave Jefferson 6:44 a. m., Fort Atkinson, 6:55 a. m., Koshkonong 7:06 a. m., Milton Junction, 7:14 a. m., Beloit 7:30 a. m., Janesville, 7:40 a. m. Arrive at Lake Geneva 9:30 a. m., Williams Bay 9:35 a. m. Returning leave Williams Bay 5:40 p. m., Lake Geneva 5:50 p. m.

For tickets and full information apply to agents Chicago & Northwestern railway or to C. H. Tinkham, excursion agent room 1-22, Fifth Ave., Chicago, Ill.

RURAL MAIL CARRIERS.

Must Work for Your Uncle Sam Alone—No Errand Boys.

The rural free mail carriers will not be able to please the patrons of their routes by serving as errand boys if the program under consideration at the postoffice department is carried out. There has been so much discussion of this matter and efforts made by the keepers of country stores and by large firms engaged in doing a business by samples sent to customers that the department has found it necesary to make a ruling which will not be relished by the people in and along the routes. It is probable that an order will be issued in a few days directing the rural carriers to devote all their attention to serving patrons with mail and forbidding them to carry parcels for anybody under any circumstances unless the packages come in their regular courses of mail.

Constipation, Headache, Billousness, Heartburn, Indigestion, Dizziness,

DAIRY PRODUCT OF WISCONSIN

Continued From Page 1.

the amount of milk adulteration. Cities are adopting and enforcing more stringent milk ordinances. Local boards of health are exercising more vigorous supervision over the milk supply of their communities. These causes and the work of this department have combined to give the people a larger proportion of pure milk and cream."

Credit is given by the commissioner to the work of instruction done by the State Dairyman's association in greatly helping the cheese industry of the state, with two expert instructors in the field in the cheese-making season. "The industry," Mr. Adams says, "has been great'y stimulated by the high prices of the last two years. The factories are rapidly coming into line in the matter of buying their milk upon the basis of the Babcock test. One great benficfiial effect of this is to encourage the breeding of cows that give a maximum of butter fat in their milk and a minimum of water.

Cheese of Wisconsin

"The cheese of Wisconsin is regaining its old reputation in the market that it had before the filled cheese blight fell upon it. Its best grade is not outclassed by either the cheese of New York or Canada. When the cheese factories that are unclean and marked by slovenly management that sell green cheese in idiotic eagerness for immediate retuns, are wiped off the map of the state, Wisconsin cheese will be wanted in every domestic and foreign market."

There is no filled cheeses manufactured in any state in the union, the commissioner says, except Illinois, which has seven factories. "The national law crippled, but did not destroy the business. The presence of this counterfeit in the market is an injury to honest trade. It is unfortunate that Illinois permits its manufacture."

Subject of Oleomargarine

On the subject of oleomargarine Commissioner Adams waxes earnest and eloquent. "The manufacturers of oleomargarine and the dealers continue to evade and defy the law of this state relative to counterfeit butter to the extent of their power. Their policy is the same in every state in the union. Their contempt for public judgment as expressed in law is supreme. They claim to know more about the public interest than state legislatures and about the constitutionality of laws than courts.

"Some difficulty is found in the matter of securing convictions under the oleomargarine law, and one case in one of the larger cities of Wisconsin is cited where 'the chain of testimony was absolutely perfect. No witnesses were called for the defense and the attorney for the defendant who happened to be the mayor of the city in question, stated to the jury that the defendant was a good man; that the law was not intended for enforcement and more than the Sunday closing law, and that for this reason acquital should be prompt. It was. The judy returned a verdice in five minutes of not guilty.' "

Tempatation to Middelmen

"There is no condemnation too severe," the commissioner says, "for outside firms who send their agents into this state and deliberately conspire to involve our own citizens in illegal business. The temptation to retail oleomargarine is great because the middleman receives much greater profits than in handling butter. The profits of the retailer range between two and eight cents per pound. Naturally he thinks any law which interferes with his business is unconstitutional.

"In this state the retailer seldom sells oleomargarine for butter. When he violates the law it is usually in selling the colored article in violation of the anti-colored clause. The greatest fraud in oleomargarine sales in this state is in the supplying of that article to hotels, boarding houses restaurants and lunch counters in response to calls for butter. In this way the final purchaser is defrauded and given that which he does not call for and does not want.

Under Its Own Name

"Oleomargarine sold under its own name and color has a place among legitimate food products. Its friends are not satisfied with this. They claim the right to make a perfect counterfeit of butter in appearance, well knowing that when so made it will be unconsciously purchased by people who ask for butter. They claim further that the oleomargarine industry will be destroyed if butter color cannot be used. This is a confession that the entire industry is based on a fraud.

"Oleomargarine can be sold uncolored. The uncolored article is now being sold in Racine, Oshkosh and Milwaukee in considerable quantities. It has precisely the same food value as the counterfeit product and its sells from three to seven cents less. The poor consumers, whose woes are pictured with such graphic power by the able gentlemen representing the oleomargarine trust get their uncolored substitute at an oleomargarine price, and pay much nearer and many times less, a butter price for the colored imitation.

"Thirty-two states prohibit the manufacture of oleomargarine colored like butter. If these states could all give stringent enforcement to this prohibition, oleomargarine would be sold in every one of them at a price bearing a proper relation to its cost and at a reduction from present prices of from 16 to 40 per cent."

W. A. BAYLEY.

Reduced Rates to Delevan, Wis., via C. M. & St. P. Ry.

Mrs. Agnes Clark is visiting her sister at Evansville.

MODES FOR WOMEN.

A batch of summer collets will provide excellent hints for the woman who wants an attractive supply of these necessary accessories. Black and white chiffon, French lace, tulle with raw edges, silk muslin, and point d'esprit are the chief materials employed in this direction. Edges are outlined with narrow velvet or satin ribbon, of if lace is used here the long scarf ends to the throat ruffle will sometimes be striped or barred with tiny ruches of it, producing an effect of richness. However, the most delightful of these collets are daintily simple.

One of white brussels net with tucked scarf ends, flouncing out some five inches at the bottom, where the tucking stops, depends entirely on black stitching for ornament. This outlines in nine rows the inch-wide hem of the ruffle and that of the ends, which in the approved fashion fall below the knees. Another very smart collet is of scarlet tulle, with edges of ruffle and ends left raw, the latter folded in long, loose pleats and coming almost to the feet. The ruche part of this is in itself a creation. It is much wider in the back than front and doubles to stand out like an immense ruff. Only a little more than the crown of the head could be seen over it from the rear.

Many sorts of scarfs are seen, those of painted liberty silk being much used out of town as evening mufflers; sometimes with a garden gown there will be a long affair of soft mull, made to tie about the shoulders with graceful quaintness. A dainty scarf of this sort is made to wear with a garden party gown of tucked white taffeta and black dotted swiss. The scarf proper is of plain swiss with dotted ruffles, and the note of black is further repeated in a beading to the skirt flounce, a girdle and neck band of lace in clover-leaf appliques.

REJECTS REPORT OF HARPER.

Education Council in Favor of a National University.

Detroit Mich., July 10.—President William R. Harper of the University of Chicago and the members of the committee of fifteen educators appointed by the National Council of Education to report on a national university were given a merciless scoring at the morning's session of the council. President Harper was obliged to sit as chairman of a meeting and hear his motives in making the report unfavorable to a national university questioned. President James H. Baker of the University of Colorado led in the attack on the report, saying he thought the men on the committee were influenced by fear that their own institutions would suffer. After a long discussion, during which the educators often indulged in harsh words, the recommendation of President Harper's committee was defeated.

Report of Dr. Harper.

Detroit, July 10.—The report of the committee on a national university submitted to the national council of education by Dr. William R. Harper of Chicago University, was the feature of the council's last session until Thursday afternoon.

It was stated in the report that at one of its earlier meetings the committee adopted the following declarations:

"It has been and is one of the recognized functions of the federal government to encourage and aid, but not to control the educational instrumentalities of the country.

"No one of the bills heretofore brought before congress to provide for the incorporation of a national university at Washington commends itself to the judgment of this committee as a practical measure.

"The government is not called upon to maintain at the capital a university in the ordinary sense of the term."

"Both organizations have agreed to co-operate to found an institution in the City of Washington, as a memorial to George Washington, which shall be maintained to promote the advanced study of the sciences and the liberal arts."

Boers Manifesto in Paris.

New York, July 10.—A Paris dispatch to the Herald says that a manifesto in favor of the Boers has been posted on the walls of the Latin quarters in Paris in view of the celebration of the national fete on July 14.—This poster is signed by students of Paris and "Transvaal Volunteers." It proposes to hold a meeting where a procession will be formed which will march toward the grand boulevards. This is signed by M. Castanie, president of the "Transvaal Volunteers."

C. E. Rose left his morning for Potters' Hollow, N. Y. to visit friends.

SHAFFER PREDICTS PEACE

Looks for Settlement of Strike at Conference.

EXPECTS FAIR TREATMENT.

Indications Point to Agreement Between Great Combine and Its Employes—Shaffer Says the Association Will Not Consent to a Compromise.

Pittsburg, July 10.—That the steel strike will be settled at the conference to be held Thursday between representatives of the Amalgamated Associations and the United States Steel corporation is confidently expected here. "Our executive board," said President Shaffer, "will meet the committee representing the combine at the Hotel Lincoln in this city at 10 o'clock on Thursday morning. I am now pretty well satisfied that the trouble will be settled at this meeting. There seems to be a spirit of fairness prevailing among those to whom I have talked officially on the subject, and I think we will fix matters up. The meeting will be for the signing of the scale for the mills as a whole."

President Shaffer said the conference must be final, as the association will not waste any more time and will not consent to a compromise. The members of the executive board of the Amalgamated Association who have been called here are, besides President Shaffer, Vice Presidents F. J. Williams of Birmingham, Ala., Clem Jarvis of Anderson, Ind., Charles S. Davis of Newport, Ky., Walter Larkin of Wheeling, W. Va., John F. Ward of Youngstown, Ohio, John W. Quinn of Granite City, Ill., Dr. R. Rees of Pittsburg, John Campbell of Youngstown, Ohio; Secretaries John Williams, M. F. Tighe, V. I. Davis and National Trustees John Pierce and John H. Morgan. It is said that the United States Steel corporation will be represented by general officers and not by any of the operating officials of the underlying companies. Should this be the case, it will mark a decided departure in the method of dealing with labor questions with the Amalgamated Association. The former determination of the officers of the corporation to remain out of such negotiations and allow them to be settled by the officials of the various subsidiary companies will have been entirely changed, and in place the general officers will undertake to settle the labor matters for the entire interests of the greater corporation.

R. H. Griffiths is visiting friends in Milwaukee, Wis.

A Country Lass,

Health in her beaming eyes, health in her glowing cheek, health in her merry laugh. Yet country air and country hours can't save her from the common experience of women—an experience which dulls the eye, pales the cheek, and turns the laugh to a sigh. Womanly ills come to almost all. But for these ills there is help and healing in Dr. Pierce's Favorite Prescription. It regulates the periods, stops unhealthy drains, cures inflammation, ulceration and female weakness. It makes weak women strong, sick women well.

"Miss Ella Sapp, of Jamestown, Guilford Co., N. C., writes: "I had suffered three years or more at monthly periods. It seemed as though I would die with pain in my back and stomach. I could not stand without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better—had better appetite and slept better. Now I am happy to say I am entirely cured, and all done in two months' time, when all other medicines had failed to do any good at all."

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

An Old Friend

S. S. S. has been before the public for many years; from a small beginning, it has steadily worked its way to the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction, or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects,

Don't Experiment—Take S. S. S.

for no sooner does it get into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anaemic people will find S. S. S. just the medicine they need, for blood poverty and illy nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—IT CURES, is the secret of its success. When you call for S. S. S. don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

SSS

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Told by Pain

If you have pains you should look after them quickly. Pain shows something is wrong. The sharper the pain the more danger there is in delay. There are thousands of women to-day who are bearing awful pain almost continually, rather than tell a physician about the shooting pains in their lower abdomen, about the agony of falling of the womb and the distress of leucorrhoea. They let the months pass and their trouble becomes harder to cure and more distressing. But modest women can secure exemption from the embarrassment of a private examination. When pain tells them of danger they can cure themselves by the use of

WINE OF CARDUI

in the privacy of their homes. You can be cured without distressing publicity. With these facts before you there is no reason for the delay which is increasing your misery and wasting the days of your life. Why not stop the pain today?

Belen, Miss., March 9, 1900.

I have used one bottle of Wine of Cardui and one package of Thedford's Black-Draught. Before I began to take your medicines I had pains in my back, hips, lower bowels and my arms. Sometimes I thought I would go blind. My head ached and I was so weak I could hardly walk across the floor. Now I can only feel a little of the pain in my side and I am going to use your medicines until I get cured, for I believe they will certainly cure me. I have been married twelve years and am the mother of seven children. I thank you for your wonderful medicine and what it has done for me.

MATILDA SMITH.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department", The Chattanooga Medicine Company, Chattanooga, Tenn.

FOR A BABY OF THIS SIZE

Or a baby of any size, when suffering from simple fevers, coated tongue, constipation, or any trouble arising from the stomach, the purest, safest and best remedy is LAXAKOLA, the great tonic laxative.

Mothers, watch your children carefully. Their health, perhaps their lives, depend on keeping their bowels regular. Many parents make a fatal mistake by giving their little children the old-fashioned, violent purgatives which are racking and griping, and are therefore not only unpleasant, but dangerous. Make no mistake, give them

LAXAKOLA

It does not gripe nor irritate. It is a pure, gentle, speedy and painless liquid laxative. It is not only a sure laxative, but it contains valuable tonic properties which act upon the bowels, tone up the entire system and purify the blood.

A few drops can be given with safety to very young babies, and it will often relieve colic by expelling the wind and gas that cause it. It will aid digestion, relieve restlessness, assist nature and induce sleep.

For constipation, simple fevers, coated tongue, or any infantile troubles arising from a disordered condition of the stomach it is invaluable. Great relief is experienced when administered to young children suffering from diarrhœa, accompanied with white or green evacuations, as LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of the fermentation.

LAXAKOLA FOR THE COMPLEXION

Blotched, sallow, unwholesome and muddy skin, with its consequent mortification, often leading to morbid seclusion and aversion to society by friends, shows that your blood is bad. The only way to clear the complexion and restore it to its normal, healthy, velvety condition is to clean out the entire system, purify the blood and remove the causes, and *Laxakola does it*, as well as acting directly on the pores and assisting the perspiratory glands in throwing off impurities. It purifies the blood as no other medicine can, and your skin will not only be well but you will be well. At druggists, 25c. and 50c. Send for free sample to LAXAKOLA CO., 132 Nassau Street, New York, or 356 Dearborn Street, Chicago.

Trade supplied by King's Pharmacy and People's Drug Store.

WISCONSIN WEATHER FORECAST

Generally fair today, tonight and Thursday.

Debs At It Again.

There is one man in the country today who ought to be quarantined. Eugene V. Debs started on a toboggan slide towards anarchy the Fourth, and is demonstrating how rapidly a man may travel in that direction when once started. He gloats in the statement that he has no respect for the stars and stripes; and is looking for an opportunity to pull down the flag.

He has denounced every American institution from the Supreme Court down, claiming that those officials who do not hold similar views are tools of monopolists. He thinks this is no longer the land of liberty, but will have a job on his hands to prove it when such men as he are allowed to wander about hurling their venomous invectives at every one in sight.

Debs is simply frothing at the mouth, an indication that he is either suffering in the last stages of rabies or again has taken an overdose of green cucumbers. Such men aren't worth arresting—they are too ludicrous to be harmful.

A New Inflation Scheme.

The Boston Transcript criticises Gov. La Follette's course in signing the ice tax bill, saying:

"If the state owns the ice what becomes of its property when melting weather arrives Wisconsin should have more permanent assets than the ice on its lakes, or liquidation will bring bankruptcy."

Evidently the Transcript doesn't comprehend the Populistic theory that something can be made of nothing. If money can be made of wind why can it not be made of frost? Why oppose the free coinage of cold air at the ratio of ten cents to one ton? Wisconsin has plenty of frigidity in the winter. Why should it not be put into circulation? If the Transcript cannot answer these questions it has our permission to refer them to the Hon. Wi'liam J. Bryan.

Doctors and the Canteen.

The recent convention of the American Medical Society at St. Paul put itself on record in regard to its attitude toward the army canteen, by adopting a memorial to congress for the repeal of the anticanteen law. When such men as the preservers of our health deliberately approve of an institution in which they can have no personal interest it argues strongly that such an institution cannot be the menace to health and morals that our W. C. T. U. have painted it.

We are still waiting to see if as good a man as Superintendent Swiler can be found for the Delavan deaf. —Madison Journal.

And what will you fellows advise if he cannot? Everyone knows Mr. Swiler is a good man for the place, and he should be retained if the interests of the school are to be considered.

In view of the fact that all of the savage as well as the civilized peoples on the face of the globe have long since conceded that an able seaman could get the deepest draught on earth over the Milwaukee bars, the statement that the Cream City "needs a deeper harbor" would appear to be a trifle foamy.

Although it is alleged that Pension Commissioner Evans puts in his time rejecting claims; it appears that he must spend some time in allowing them, as 45,000 pensions were allowed during the past fiscal year.

Mayor Jones of Toledo thinks the army and navy are unnecessary, and says he would dispense with their services. Let him dismis his police force and get some idea of the results of dismising the army and navy.

However, the Wholesale Saddlery Association, now in session in Milwaukeee should not become possessed of the idea that it has the only sixteen strand cinch. Pride always goes before a fall, you know.

At last the Sultan of Turkey has settled a bill—the unpaid Turkish troops broke into the public treasury and carried away what was due them.

It is certainly difficult for the constitution to keep up with the flag when it soars 18,000 feet above the sea, as it did on the Fourth at Pike's Peak, attached to several box kites.

The Yacht Constitution easily defeated the Yacht Independence the other day, thereby confirming the statement that "the Constitution does not follow" etc., etc., etc.

Mayor Rose of Milwaukee addressed the Glass Bottle Blowers' Association the other day and because of the clearing of the accomplished Hon. Mayor, the delegates were able to pick up many valuable pointers concerning the other uses to which hot air can be put.

It matters not whether the Milwaukee street bridge is owned by Alderman McLean, Mayor Richardson or the people. The owner, whoever he may be, should be ashmaed of the property.

Edward F. Meltz and Margaret Blough were married at Chicago the other day. Chicago, it will be remembered, claims to be a summer resort—a place where no one Meltz' because cool breezes always Blough.

We have been successful for a hundred years in our treatment of the African and American Indian; it is not likely that we will fail with the Asiatics.

The evangelist at Madison have now been fully initiated into Dowie's Zion. They can be called "elders" from now on.

Mrs. Nation has at last been smashed: a stand took a tumble to her and bruised her considerably.

Tommie Lawson can now describe Timmie Lipton's feelings to a T.

THE BOARD'S DIFFICULTIES.

The appointment of Prof. Hutton of the Whitewater normal to the superintendency of the Janesville school for the blind may tend to support the surmise that the State Board of Control was simply unfortunate in the time of its discovery of the incompetency of Mr. Bliss and the other superintendents, and not wilfully disregardful of its duty to keep the state institutions out of politics.

Prof. Hutton is one of the ablest educators in the state, and the Janesville institution will not suffer in his hands. He has taken a deep interest in politics but has not been sufficiently active to make his appointment a political one. He was chosen because of his fitness for the place, and that fact in a measure, disarms criticisms of the board's course so far as that particular institution is concerned.

Since the board has made such an excellent appointment it is the more to be regretted that it did not earlier discover the necessity for a change. Its position would be less embarrassing, too, if it had refrained from frequently praising the superintendents who are now removed for incompetency. A hint of its dissatisfaction instead of the laudations in its last report would have made its present attitude appear less inconsistent.

For the board's sake it is to be hoped that Mr. Hutton's appointment will satisfy the people that the state institutions are not being dragged back into politics. It is true that the gentlemen who were removed happened to be obnoxious to the governor, but by remembering that they were incompetent the public will be able to see that political considerations did not cut any figure in the case.

The appointment of a successor to Superintendent Swiler of the Delavan school will be awaited with interest. The friends of the gentlemen composing the board will hope to see them extricate themselves from their present unfortunate position in such a manner that they can not be suspected of having lent themselves to any trick so despicable as that of branding as "incompetent" men whose positions happened to be wanted, or who must be punished for past political offenses.

They owe it to themselves and to the administration to clear their skirts of any such suspicion if they can.—Milwaukee Sentinel.

Refuses to Accept Fortune.

Cincinnati, July 10.—Mrs. Philip Armour of Chicago, through her attorney, has declined to take one-half of the estate of her brother, Frank Ogden, who died recently in Cincinnati. Mr. Ogden left an estate which by his will was to be equally divided between his wife and his sister, Mrs. Armour. By the latter's generosity the whole estate will go to his widow.

GALVESTON SWEPT BY GULF STORM

Dallas, Texas, July 10.—A severe gulf storm is raging at Galveston. Thus far no lives are reported lost but there is consternation with the inhabitants. The water is reported over half of the island. Many of the inhabitants hurried to the mainland last night and remained quartered in the upper parts of the stronger buildings. Considerable property is reported as lost or damaged.

July 23rd to 25th, good to return until July 30th with privilege of an extension until Aug 31st. Acc't B. Y. P. U. convention. For rates and further particulars call at passenger depot.

Free Trance Tests

By MADAM DE'ODD.

A MOST FAIR PROPOSITION

My callers are my best advertisers. Every morning, from this day on Madame De Odd will give free tests in medium work between the hours of 10 to 11 oc'lock in private parlors at 154 South Main Street. You pay nothing. Madame De Odd and attendants will be in Janesville for several weeks. To introduce herself she makes this most liberal proposition:

She asks no questions; tells the names of friends and enemies; tells what you have called for; tells your name in full; tells all about your business affairs; tells things you should know. Does another share the love that should belong to you, or is there some one else's love you wish to gain, or have you secret enemies or rivals you wish to overcame? Do you want to get proof, facts and names in regard to wheter husband, wife or sweetheart is true or false? Do you want success in luck, love, marriage, health, business and speculations? Special attention given to the location and discovery of old estates, lost documents, lost or absent friends—in a word whatever your troubles, suspicions, hopes, fears, or desires, you are earnestly invited to call, and you will be rewarded by obtaining a clear insight into the future. Also if you care to learn the lives and fates of those who are dear to you. All business private and confidential. Satisfaction guaranteed. Evil influences broken, good luck given. Your personal magnetism developed in 21 days.

MADAM DE'ODD,

Trance, Business, Materializing and Independent Slate Writing Medium.

...FOOT LUXURY...

The cool and easy kind at mid-season prices. This is just the time when a great many of the most popular lines become broken, rather than re-order, we close them out. Thus getting ready for something new all the while.

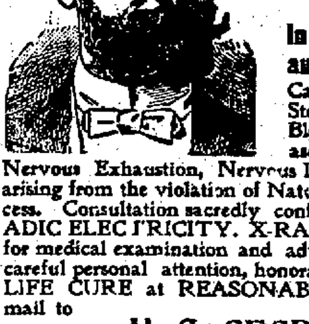

IT IS HOUSE CLEANING TIME and

'Low Prices' Our Surest ....Cleanser....

Every pair is of the season's choicest that we have to show you and you will find a variety of only **stylish up-to-the-times footwear** to make selections from. There is nothing trashy about our lines. We have the ear marks of novelty, shoemaking and fit.

SPENCER,

MERCURY IS OVER 100 IN THE SHADE

HEAT RECORD FOR THE SEASON AND FOR YEARS BROKEN.

Thermometer Registered From 101 to 108—The Sun Beat Down Relentlessly and the Wind Scorched As If It Came From a Red Hot Furnace —No Prostrations Reported.

The heat record was broken again today and it is to be feared that old King Sol will be content to rest on his laurels after today's experiences.

At one o'clock today thermometers in various parts of the city registered from 101 to 108 in the shade. All the thermometers consulted had been in the shade all the morning on a part of the house; not yet touched by the sun and one was on the north side of the house in a locality where the heat is seldom as intense as in the heart of the city.

This thermometer has been tested repeatedly and is absolutely correct. The mercury in it has never before reached the 100 mark and today it stood at 101. The thermometer in front of S. C. Burnham & Co's. jewelery store also designated the same temperature.

Not only has the sun beat down relentlessly on suffering mortals all day but the earth seems to have been absorbing heat for the past two weeks and to have chosen today to send it forth again.

Added to the sun's rays and the waves of heat from the earth there has been a wind that would not be disputed if it claimed to have come direct from the Sahara desert or from the famous furnaces in the realm of his Satanic majesty. Clouds of wind-driven dust dust have added to the discomfort of humanity and the combination of intense heat, wind and dust has seemed to leave nothing lacking in the way of disagreeable features for a summer day.

Weather prophets were sure of a rain yesterday. The housewife noticed with pleasure the closeness with which the flies clung to the screen doors and she gleefully asserted that rain was surely near at hand because the flies always act that way just before a storm.

The leaves on the trees turned over, exposing the white side, and that was proclaimed as another sign which never fails. The hot wind of yesterday and the dense clouds which rolled up late in the afternoon seemed certain to bring rain but all signs failed. One disgusted prophet was heard to say: "Well, all signs fail in dry weather but if we aren't all burned up and blown away by next week Wednesday we can look for a good soaker. If any thing on earth will bring a rain, a union Sunday school picnic ought to." To which the ever-present croaker replied: "Yes, but the rain will probally wait until the picnic gets started and then it will visit Lake Geneva and we won't get any of it."

Prostration Near Beloit

Beloit, Wis., July 10—Rudolph Saunders of Madison, a member of the gravel crew at work in the gravel pit north of this city, was overcome by the heat this forenoon and fel unconscious to the ground. He was brought to this city and was taken to the Emergency hospital where he lies in an unconscious condition.

Reports are coming in from the surrounding country that large numbers of small fires are destroying the crops. Vegetation is so dry that fires are easily started and spread rapidly.

FARMERS SUFFER FROM THE DROUGHT

In Many Sections of the Country Farmers Are Plowing Under Early Crops—Prospects Poor.

Farmers will soon be ready to go out of business unless the draught which has been on for the last three weeks lets up pretty soon.

In many sections of the county farmers are plowing early crops under intending to plant them over again and take their chances on getting a crop in this way.

Small fruits, garden truck, potatoes and early vegetables are all a failure on account of the drought. One man remarked that he had plowed up three-fourths of an acre of potatoes and did not get as many good ones as he should out of two rows. People who planted potatoes in their gardens intending to get good returns have not succeeded in getting enough to pay them for planting them.

Tobacco is a great sufferer on account of the dry weather and a number of farmers are planting their tobacco ground to corn hoping by this method to get something out of the land. Early tobacco seems strong enough, but the hot dry weather retards its growth.

Janesville seems to be the center of the drought as considerable rain has fallen a few miles out from the city. Near Johnstown they have had plenty of rain and also up near Fulton. In these sections the crops look good but around Janesville they are pretty tough.

EIGHT HUNDRED COMING.

Next Sunday a picnic excursion numbering 800 people will arrive in Janesville from Madison to attend the annual picnic of the Union Mutual Accident and Health Insurance Society to be held at Crystal Springs park. The excursion train will arrive at 10 a. m. The boat will leave the city for the park every half hour. Games will be played and the Imperial band will play. A good time is assured all who attend.

TOBACCO SECTIONS INJURED BY HEAT

Much Land is Still To Be Planted and Replanted, and Crop Will Be Delayed.

Edgerton, Wis., July 10.—The tobacco sections of the southern portions of the state are still suffering form the drouth and hot weather. There is considerable ground yet to been planted and growers are anxious ly waiting for rain in some tobacco growing territory. Local showers have broken the drought in localities but there is quite a section which is still dry and parched. In the favored sections where rains have come the tobacco has come forward rapidly and many fields are fully as far advanced as other years at this date. The outlook however is not as promising as a year ago this date, and rains must come or the crop will be curtailed.

Business in old leaf is remarkably quiet and but few transactions have come to the surface to date. G. H. Rumrill has purchased the packing of 1900 put up by W. B. Conrad at Janesville, some 500 cases. Other sales are generally of small lots to manufacturers.

The shipments out of storage in this market do not exceed twelve car loads, 600 for the week past to all points.

Omaha, Neb., July 10.—Treasurer A. B. Norlin of Kearney county has confessed to the attempted burning of the courthouse and the theft of about $10,000. When the crime was discovered he displayed bruises to verify his story of assault and robbery. Six thousand dollars of the missing money was found in a cornfield.

CELEBRATE HIS SIXTH BIRTHDAY

Master Stanley Yonce Given a Party by His Aunt and Uncle, Mr. and Mrs. Stanley B. Smith

Six years ago yesterday Stanley Yonce, the manly little son of Mrs. Mary Yonce and nephew of Mr. and Mrs. Stanley B. Smith, with whom he and his mother make their home, began his happy life which has brought joy to the many relatives and friends who know and love him. Yesterday the anniversary of his birth was most joyously celebrated by a large company who enjoyed the hospitality of Mr. and Mrs. Smith, the party being given in honor of Master Stanley.

From four o'clock until seven the little folks made merry, their sweet childish voices making music in the spacious home and on the lawn until the aged trees of Forest Park which have looked down on the pleasure of many children, echoed back their ringing laughter. Mrs. Francis Grant, Misses Mabel Shumway Josephine Carle and Marcia Jackman assited in entertaining the children, leading them in the various games which they played and not permitting one dull moment to intrude itself and mar the pleasure of the afternoon.

At six o'clock the summons which always receives a ready response both from the little people and from children of a larger growth was given and the guests gathered around a long table which was spread on the lawn. The table was handsomely decorated and about sixty of Master Stanley's little friends joined with him in the enjoyment of his birthday feast. The menu was an excellent one including the delicacies of which children are especially fond, and it was faultlessly served, Mrs. Smith and Mrs. Yonce being assisted by a number of their friends in caring for the youthful guests.

The party was one of the prettiest at which children have ever been entertained in this city. The house was beautifully decorated with Japanese lilies and roses and when the guests unwillingly bade good-night to their young host, each little girl took home a fan and each little boy had a toy whistle with which they had been presented as souvenirs of the happy occasion. Master Stanley also received many pleasant reminders of his birthday, tokens of the affection of his young friends who joined with him in his celebration.

JANESVILLE ELKS WILL GO IN A BODY

They Have Secured Hotel Accommodations for the Lodge at the Milwaukee Carnival.

The report that the local Elks had been unable to secure accommodations for the lodge at the carnival to be held in Milwauke this month and had therefore decided not to attend in a body, was erroneous. B. H. Baldwin, secretary of the local lodge, is authority for the assurance that rooms for the Janesville delegation have been secured at the Pfister and that the signed contract is in his possession. The Janesville lodge will attend the carnival in a body as was voted at a recent meeting, and will leave this city, about seventy members strong, over the Chicago & Northwestern road on Tuesday morning, July 23.

NEWS OF A PERSONAL NATURE

L. P. Salmon of Beloit had business in this city yesterday.

Mr. and Mrs. A. C. Randolph left last night for a pleasure trip to California.

George Brae returned to Chicago this morning after spending a week with relatives.

Fred W. Anderson has returned to this city from Brodhead and will go into the real estate business.

James A. Fathers is in Green Bay attending the meeting of the directors of the Odd Fellows' Home society.

Mrs. C. F. Goodwillie and sons of Chicago are the guests of her mother, Mrs. Emily Hemming, 5 Cherry street.

The Misses Kittie and Anna Shields have gone to Duluth by rail and from there will go by boat to Ashland.

Misses Jessie Brown and Louise Johnson left this morning for an extended trip which will include the boat trip on Lake Ontario, a visit to Montreal, the trip down the Hudson river to New York City and a visit to the Pan-American exposition at Buffalo. They will be absent from home about one month.

Floyd D. Murdock, who suffered a severe attack of indigestion which almost resulted fatally last Sunday, is not so well today. His heart action is very low, running as low as 40, the result of kidney trouble.

C. H. Spencer received a telegram today from Chipewpa Falls announcing the death of his step-mother, Mrs. H. C. Spencer, which occurred this morning. Mrs. Spencer was seventy-seven years of age and had many friends in this vicinity. Mr. Spencer will go to Chippewa Falls tomorrow to attend the funeral.

HELEN E. CLARK, JOHN P. JOYCE

Well Known Young People Married at St. Mary's Church at 7:30 O'clock This Morning.

Miss Helen E. Clark and John P. Joyce, both well known young people of this city, stood before the altar at St. Mary's church this morning at 7:30 o'clock and exchanged wedding vows. The sanction of the church was given by Rev. Father W. A. Goebel who celebrated the nuptial mas sand pronounced the young people man and wife.

The ceremony was a beautiful one and was witnessed by a large gathering of relatives and friends. Exquisite music added much to the impressiveness and beauty of the occasion. Miss Tessie Gibbons presided at the organ in her customary faultless manner. Miss Murphy of Chicago who is the guest of Miss Edith Dilzer, sang Stanley's "Ave Marie," exquisitely. She is the happy possessor of a very melodious and cultured high soprano voice.

After the ceremony an elaborate wedding breakfast was served at the bride's home, 104 St. Mary's avenue. The wedding party included about forty relatives and intimate friends.

Mr. and Mrs. Joyce left for Chicago on the 10:10 train this morning and after a brief wedding journey they will go to housekeeping in a prettily furnished home on North Bluff stret.

Among those from out of the city who witnessed the wedding were Miss Mary Clark and Thomas Clark of Chicago and Michael Clark of Cincinnati, sister and brothers of the bride.

HAY FIELD FIRE IN TOWN OF HARMONY

N. M. Jackman Came Near Losing His Farm Buildings—L. Rooney Out a Lot of Hay.

M. M. Jackman, who resides in the town of Harmony had a close call to losing his house and barns yesterday afternoon by fire. Mr. Jackman had sold the hay in a field adjoining the house to L. Rooney who was engaged in cutting it. He had most of the field cut and partly raked up when the fire started. It was fanned by a brisk breeze and soon the whole field was a sea of flames.

The wind carried the fire at a brisk pace towards the house and barns and it was only by the greatest effort on the part of Mr. Jackman and his family and the neighbors who had noticed the fire that it was kept from destroying the buildings.

Mr. Rooney had just purchased the standing hay from Mr. Jackman and paid $40 for it. The fire burned up more than half of the crop so Rooney is out about $20 on the deal besides the time he put in harvesting it.

NEW SWITCH YARD BY ST. PAUL ROAD

Five Long Sidings Holding Eighty Cars Each Ready for the Mineral Point Division.

The St. Paul company have about completed a switch yard on the Mineral Point division west of the city that is second to none on the division. Five long sidings holding eighty cars each, with the necessary switches have been built. This gives them all of the yard room they need and will take a large part of the switching which is now done between Pleasant and Jackson streets away from that neighborhood. It will help to relieve the crowding of the passenger station and give the passenger trains more clear space for operation. This is only one of the few improvements that the company contemplated this year, before they were blocked by the common council.

Mrs. James Condon Explains

Mrs. James Condon denies that she caused the arrest of her husband on July 2 for personal abuse. It was another woman who swore out the warrant. Mrs. Condon says she had no cause to have her husband arrested.

"RIPPER" ESCAPES MOB

Chris Jansen Has Violent Homicidal Mania.

CRAZY ONLY IN HIS TALK.

Blood-Stained Criminal in the Toils at Denver—Trying to Connect Him with Different Crimes — Story of Little Girl Victim.

Denver, Col., July 10.—Chris Jensen, insane with a violent homicidal mania, has escaped lynching because of the inhuman brutality of his crimes and the unusual character of his madness. The details of his crimes are shocking. He was taken by the police with his hands stained with the blood of Armenia Bullis, a woman 70 years old, he had just murdered. The knife with which he had done his work was unsheathed in his hand. When arrested he laughed insanely and asked if the woman he had cut was in a serious condition. The Kinport crime was not then known at headquarters.

Jensen occupied cell No. 2 at the City Hall, which is the one Albert Cowan inhabited for many weeks. While he is in the cell he is ferociously crazy, but as soon as they take him out he calms down and is crazy only in his talk. The cap which Chief Armstrong tried to get Jensen to identify was a cap found on the dump near which Jessie Kinport was found.

Jessie Kinport's Story.

Late in the evening Jessie Kinport recovered consciousness and told her story for the first time. She says she retired for the night at half-past ten. Prior to that, while sitting on the porch, a stranger demanded a glass of water, which she gave him. Roughly the description corresponds with that of Jensen. Neighbors also say the same man came to their houses at a late hour, soliciting a drink of water. After going to bed Miss Kinport fell asleep almost immediately and did not know what time had elapsed before she awoke with a choking sensation, to find her throat in the grasp of a man who leaned over her. Then she lost consciousness and knew nothing of what happened until told last night. The child's injuries are serious and are likely to result fatally.

An Earlier Report.

Denver, Col. July 10.—Jessie Kinport, the 14-year-old daughter of Mrs. Carrie D. Kinport who resides at 119 West Ninth Avenue, was attacked and horribly mutilated in her room during the absence of her mother during the night. "Jack the Ripper," her assailant, is arrested. Mrs. Kinport had been away during the evening and upon returning home found the doors open.

Hastening to her daughter's room she found the bed clothes strewn about and blood spattered over the room. The girl was nowhere to be seen.

She aroused the neighbors, who began searching the neighborhood. About midnight they found the girl in a vacant lot near by, unconscious and fearfully mutilated.

The police authorities were notified, but not before Chris Jensen had been brought to the station by Policeman Lambert, who had arreted him on the outskirts of the city. Lambert came upon Jensen about a mile and a half from the scene of the crime.

As Lambert approached, Jensen whipped out a knife and shouted to the officer that he would not be taken to jail. Lambert disarmed Jensen and brought him to the station. On the way he repeatedly spoke of having been compelled to defend himself from a woman, saying that he had cut her up pretty badly. The knife he had threatened the officer with was covered with blood.

Shortly after Jensen was locked up the police department was notified of the attack upon the little Kinport girl. They immediately connected Jensen with the affair.

Jensen admitted to Chief Armstrong that he had stabbed and cut a woman, but said that he had met her in the street and she had bumped against him as he was passing by. From his actions the police are convinced that Jensen is demented.

An investigation of the footprints at the scene of the crime shows that the shoes worn by Jensen fit the marks exactly. The police are sure that Jensen is the guilty person, and that he is the "Jack the Ripper" who committed numerous attacks made upon women of late.

Jessie Kinport is still alive, but in a dangerous condition.

Rogers' Nephew May Get All.

New York, July 10.—According to a local paper all the precautions taken by Jacob S. Rogers to disinherit his relatives may go for naught by reason of an error, intentional or otherwise, he made in his will, but which, according to lawyers, must stand as it reads. The error appears in the codicil dated on Oct. 2, 1900. The codicil reads: "I hereby further will and bequeath to my nephew, Theodore B. Rogers, Jr., son of my brother, Theodore B. Rogers, the sum of seventy-five thousand dollars."

Gen. Daniel E. Sickles Ill.

New York, July 10.—General Daniel E. Sickles is seriously ill in Pleasantville, N. Y., at the home of Daniel P. Hayes, President of the village. He went there on the Fourth of July to make an address, and did so, but was not feeling well, the hot weather having had a bad effect upon him. He has been so ill ever since that he has had to remain with his host.

LATEST FOREIGN NEWS.

Demand Nude Male Models.

Paris, July 10.—American art students, men and women, and a number of women students from other countries signed a protest against the male nude models employed in the Paris Ecole des Beaux Arts, but they have been defeated by the French students and teachers, who positively decline to permit the draping of the models in bathing trunks. The French students, men and women, but mostly women, signed a counter petition, in which they say: "We ask to be treated like medical students. Are bathing garments placed on the subject in the dissecting-room? No. We are studying the human body with equal seriousness from another point of view. We demand the nude male model in the name of art." This argument has won the day, the council declaring that art students ought to leave false modesty behind when seriously studying the lines of the human form.

Dead Chinese are Honored.

London, July 10.—A dispatch from Pekin says: Posthumous honors have been bestowed upon a large number of civilians and soldiers who were killed in the attacks on foreigners, their deeds being commended by the court. Honors are likewise bestowed upon their families. In this and other ways the court still shows its belief that the war against foreigners was legitimate, notwithstanding foreign condemnation of the outrageous methods employed. The progressive officials are doubtful as to what treatment they will receive when the court returns.

Invasion of Storks.

London, July 10.—This summer there has been quite an inrush of storks to Norway. As is generally known, Denmark is the northernmost home of this interesting bird, which is interwoven with Danish folk lore and immortalized by Andersen in his "Fairy Tales." In the south of Sweden, too, the stork is fairly numerous, and breeds, but in Norway it has hitherto been considered rare, due not so much to the climate as perhaps the stormy passage across the Skager-Rack.

Troops Pay Themselves.

Volo, Greece, July 10.—The Turkish garrisons at Kilfikh and Vedena, in Macedonia, not having been paid by the government in a long time, succeeded in effecting a forceful entrance to the government treasury in the palaces where they were stationed and partitioned among themselves the money in the treasury building. A similar attempt on the part of the troops stationed at Salonica, in Macedonia, was frustrated.

Another Line to Europe.

Copenhagen, July 10.—American and Danish capitalists propose to start a direct steamship line from Copenhagen and Christiania to Chicago. American capital will be largely interested.

Its fast trains penetrate every part of the Central South. 24 hour schedule Cincinnati to Jacksonville and New Orleans, 9 hours to Chattanooga, 28 hours to Shreveport, 36 hours to Port Tampa. Observation, parlor and cafe cars—free reclining chairs—Through Pullmans to all important Southern cities.
Our booklets tell you the advantages we offer over other routes, and are sent for the asking. Write us about it.
W. C. RINEARSON, G. P. A., CINCINNATI.

LA FOLLETTE IN CAMPAIGN OF 1898

Appleton Post Charges the Governor with Acts of Treachery to the Republican Ticket.

The Appleton Post, a Stalwart Republican paper, in answer to some strictue, from the Milwaukee Free Press on the Post's opposition to the present state adminstration says:

What the course of these Republicans, who refuse to be dictated to by Gov. La Follettte, will be in 1902, in case he is renominated on a platform of his own manufacture, we do not now undertake to say. But one thing we will guarantee, viz: Let them do all that the Free Press implies that they may do, and yet their course would be resplendent with honor in comparison with that pursued by its political idol and one of the chief excuses for its being, in 1898. That is to say, Robert M. La Follette was that year a candidate for governor, but was defeated in the nomination after an animated contest but one that was admitted on both sides to have been fair and honorable. On that occasion, however, the followers of the defeated candidate were strong enough in the convention to secure the adoption of a platform precisely to the liking of their principal.

Under these circumstances, every consideration of honor made it incumbent upon Mr. La Follette to contribute his utmost to the election of his successful rival in the convention. He is an indefatigable and effective campaigner, as was evidenced last fall when he himself was the gubernatorial candidate, when he made more speeches than had ever been delivered before by any one man. Indeed, it is his boast, and evidently not an idle one, that he has the physical endurance of an athlete, and is capable of working more hours in a day than any man of his time. He could, if he would, have undoubtedly swelled the republican majority considerably in 1898 through his personal exertions. But did he do so or try to do so? Let figures, which don't lie, afford the conclusive part of the answer.

As preliminary to these, however, it is in order to cite a fact of common knowledge, viz.: That Mr. La Follette "sulked in his tent," by refusing or declining to make his voice once heard during that campaign. But more reprehensible than his silence was his act of treachery in shoving his stiletto clear to the hilt into the back of the man who had defeated him in convention. In consequence, the majority of Gov. Scofeld, as compared with that of his associates on the ticket, was cut down upwards of . . .

It is futile to say that Mr. La Follette was not responsible for this phase of the result because the loss was sustained in various localities in proportion to his influence therein. For example, in Dane county alone, La Follette's home, Maj. Scofield ran 1,900 behind his ticket. Indeed, the evidence is as plain as a pike-staff that this man wanted and did not what he could in stealthy fashion to compass the defeat of the head of the republican ticket in 1898.

The marvel was that, two years later, the republicans should have chosen as their candidate for governor the man who had grossly betrayed their most important interest in the previous electoral contest. Still, after the thing was done, the disposition generally among those whom he had antagonized, was to "let by-gones be by-gones" and to "return good for evil" and accordingly, as even the Free Press admits they "almost unanimously supported him at the election."

Never had a man a better opportunity to perfectly unite a party, previously somewhat divided, than did Gov. La Follette when he took up his duties as governor. His opponents had advanced a good deal more than half way to close up the pre-existing breach, but he would not have it closed. In fact, he has so far done everything possible to widen it. He has undertaken to dictate to, dominate, overawe and bulldoze his fellow partizans who do not approve of some of his hobbies, and failing in these attempts he has impugned their honesty, maligned their motives denounced their methods and otherwise held them up to public contumely.

We need scarcely add that, even if the governo were entiely right, and his opponents altogether wrong, respecting the causes of the existing disagreement, his course would be indefensible. Such a man can never be the leader of his party. His greatest achievement is to be the head of a faction, unless indeed he learns something from experience and profits by it. Let us still hope, albeit in the fact of much discouragement, that he may. In that event, his exceptional abilities and activities would make him a highly useful factor in the affairs of his party, his state and the country, whereas now so much cannot be truly said.

If, however, this hope is not realized and the so-called republican "stalwarts" are constrained to oppose him in the future, our friend, the Free Press, may rely on their doing so to whatever extent, not by stealth, but in the open, above board, and generally in man-fashion.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of small and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c per bottle.

Our Tobacco Crop.

There are in the United States 700,000 acres of land devoted to tobacco, of which 11,000 acres are in New England. The annual yield of all kinds in the country is 500,000,000 pounds, of which New England raises about 19,000,000. The average yield per acre throughout the country is 700 pounds, but in New England it is 1,700 pounds. It is interesting that all the tobacco raised in the country belongs to two or three botanical species, yet there are more than sixty varieties grown commercially—all of them quit distinct in shape, color and quality of leaf. The raising and curing of each class and type of tobacco is a business by itself, in its methods of culture, harvesting and curing as distinct from the others as the busines of creamery is distinct from that of the cheese factory.

Lake Geneva.

PLEA MADE FOR THE NEGRO

Endeavorers at Cincinnati Hear Booker T. Washington.

TRACES HIS OWN CAREER

ays to Cherish Hatred Against the White Man in the South Is Unchristian—Other Speeches by Lights of the Organization.

Cincinnati, O., July 10.—The fourth day of the conference of the Christian Endeavor society was a light one as far as the programme was concerned, but the Endeavorers were out en masse at the two big meetings. The feature of the day's meetings was an address by Booker T. Washington, who made a plea for the negro. After the two quiet hour meetings in the morning which open every day's programme, the big auditoriums were thrown open for a discussion of "The Twentieth Century Church." The Rev. Canon J. B. Richardson of London, Ont., presided at Auditorium Endeavor. Marion Lawrence of Toledo, O., delivered an address on "The Power of the Sunday School." The Rev. Howard W. Pope of New Haven, Conn., spoke at length on "The Power of Personal Work," which he said constitutes the only effective method of extending the church and Christianity. The Rev. A. J. Lyman of Brooklyn spoke on "The Power of the Bible." Mr. Lyman said the Bible is the book of incarnation, the God in literature, and its power is the power of that life produced in other lives. The chief address was that of Booker T. Washington of the Colored Normal School at Tuskegee, Ala. He took as his subject "The Power of a Noble Life." His address was filled with dialect and other stories of the colored folk. He traced his own career from that of a slave through the bitter struggles he had to attain what he has and what he has done for his race. He made an impassioned appeal for his people and asked that they be judged by the best among them and not the lowliest. He said he long ago learned that to cherish hatred even against the white man in the south was unchristian, and that he was glad to note that this spirit is rapidly gaining a foothold among his people. In Auditorium Williston, where Rev. Allan B. Philputt of Indianapolis presided, a number of addresses limited to five minutes each were made by the following preachers: J. H. Prugh, Pittsburg; J. S. Henderson, Hensall, Ont.; I. A. Barnes, Morgantown W. Va.; Henry W. Sherwood, Kingston N. Y.; Charles M. Sheldon of Topeka. They spoke on "Sunday Evening Service."

EIGHT HURT BY COLLAPSE.

Falling of Amphitheater in Springfield Proves Serious.

Springfield, Ill., July 10.—During an entertainment given by the show "Streets of India" at Jacksonville the amphitheater careened and fell, throwing fully 600 people to the ground. Governor and Mrs. Yates were present, but fortunately escaped without injury. Those receiving injuries were: Mrs. Edward Yates, Pittsfield, ankle sprained; Mr. Larson, Jacksonville, nose broken; Mrs. A. M. Upham, Jacksonville, foot cut; Dr. F. P. Norbury, Jacksonville, fingers badly cut; William Newman, Jacksonville, ankle sprained; Walter Lacey, Jacksonville, head cut; Miss Grace Greenleaf, Jacksonville, ankle sprained; Miss Ethel Williams, also injured.

Find Grave of Marquette.

Frankfort, Mich., July 10.—The golden altar crucifix which was unearthed by workmen on the new Ann Arbor hotel has created quite a stir. It is eleven inches in length, with arms five inches long, set in a base two inches square, and is believed to have been the property of the Jesuit priest Marquette, who was buried here 225 years ago. Some time ago a skull was found on the same spot, which created great excitement and which is now on exhibition here. The finding of the crucifix proves beyond a doubt that Marquette was buried on this spot. It is of French design and bears the letters "I. N. R. I.," and is heavily plated with gold.

Brice Escapes Jail Term.

New York, July 10.—Councilman Stewart M. Brice will not have to serve ten days in jail for contempt. So the appellate division of the supreme court has decided in the appeal from the order of the court committing Captain Brice for contempt in failing to obey a writ of mandamus ordering him to vote for the issue of bonds. That part of the sentence relating to imprisonment is set aside, but the fine of $473.75 must be paid.

Excursion Rates to Council Bluffs, Via the North-Western Line. Excursion tickets will be sold at reduced rates for round trip, July 15, 16 and 17, limited to return until July 18, inclusive, on account of annual Regatta Iowa State Amateur Rowing Association. Apply to agents Chicago & North-Western Railway.

Beloit Has 3,586 School Children

Beloit, Wis., July 10.—The school census of Beloit, just completed, shows the total number of children of school age is 3,586, an increase of 615 since last year's census.

BELOIT COUNCIL STILL OBSTINATE

Beloit, Wis., July 10—The interurban railroad managers are still urging the common council to change the conditions of the franchise requiring the flange rail to be used through the city. They say they cannot run their heavy cars on a flange rail, but the aldermen are obdurate in the matter and say they will not change the ordinance.

OHIO DEMOCRATS ARE STEADY.

Leaders of Former Gold Wing Bar "New Ideas."

Columbus, Ohio, July 10.—There is an unusually large attendance of visitors here for the preliminary meetings of the Democratic state convention. The 950 delegates are accompanied by large delegations supporting different candidates for the nominations for judge and clerk of the supreme court, attorney general, state treasurer and member of the board of public works.

The nominations for governor and lieutenant governor are the only ones in which there is not a free-for-all race with many entries. But the large attendance is due more to the reunion of Democrats, who have not been together in Ohio since 1896.

Nearly all the old leaders of this class are here now, and they are given places of prominence on committees and organization generally. While they consider the financial question settled, those who are being denominated the conservatives in opposing so-called isms that they think will hadicap the party as it has been hadicapped by certain alliances in the past. They are with the McLean men as against the Johnson men in the proposed "new departure" of the latter on taxation, municipal ownership, etc.

Hawaiian Treasury Is Low.

Honolulu (via San Francisco), July 3.—The treasury of Hawaii is in a serious condition of depletion. At the present time only salary warrants are being paid and it is estimated that in two months there will be no money left for these. Warrants issued for other purposes than to pay salaries are now being registered, to be paid in their order when taxes are collected next November. This action will have to be taken in regard to salaries also in two months, unless relief is afforded. It is thought that the sum of $235,000, now in the possession of the government as deposits made by Chinese immigrants under the old government, deposits being made as guarantees made by immigrants that they would comply with the conditions under which they were brought here and return to China in due time, may be used for the expenses of the territory.

Banks In Good Condition.

New York, July 10.—Comptroller of the Currency Dawes is quoted by the Washington correspondent of the Press as saying relative to the condition of the national banks of the country: "The latest detailed reports received from the national banks of the United States indicate an unusually high degree of prosperity."

More Filipinos Give Up.

Manila, July 10.—There have been a number of additional surrenders to Col. Wint. In all fifty-nine officers and 475 men, with 286 rifles and forty-six revolvers, have surrendered to him. Of the 9th cavalry deserters Dubose and Russell have surrendered, and Hunter and Victor were brought in by Bellarmino.

Organize a Synod in Mexico.

Mexico City, Mex., July 10.—The Presbyterians of Mexico assembled here have organized the Presbyterian church in Mexico independently of the two Presbyterian churches in the United States.

Body of Stranger Identified.

White Pigeon, Mich., July 10.—The body of a man found dead here on the Lake Shore track has been identified through a torn I. O. O. F. receipt as that of Julius Fenberg of Wheatland, Ind.

Nominated for Louisville Mayor.

Louisville, Ky., July 10.—Charles F. Grainger defeated Thomas L. Jefferson for the Democratic nomination for mayor of Louisville in a legalized primary.

The cardboard trust should be cut up and run through a press.

T. P. Burns' Timely Announcement

Of The Things You Need Just Now

You can do it in one of the

Comfortable Swings

That we sell.

They are strong and look well on a lawn. Get our prices before you buy.

E. H. MURDOCK,

Cor. Wall and Franklin Sts.,
JANESVILLE WISCONSIN.

Style is One Thing

But the most stylish carriage in the world is a failure if it does not afford comfort. You want a combination of comfort and elegance. This with durability makes the perfect carriage—

The Wisconsin King

Then there is the satisfaction when you buy of us of knowing that you are buying at first cost from the manufacturer.

WISCONSIN CARRIAGE CO.
